## DIAZ IN MOVE TO REGAIN MEXICO?

### H. K. BISHOP NAMED SUPERINTENDENT OF PUBLIC WORKS BY FREAR

#### EXPERT ON ROADS IS CHOSEN

Governor Secures Noted Highway Engineer from Isl- and of Hawaii

Hubert K. Bishop, of Hilo, engineer for the Hawaii Loan Fund Commission, today was appointed superintendent of public works of the Territory, to assume active charge of his new duties November 1. The announcement was made shortly after noon by Governor Frear at the conclusion of a lengthy conference with Marston Campbell, the retiring head of the department, whose resignation is to take effect on the date that his successor goes into office.

Bishop has accepted the appointment. "Mr. Bishop, I believe, is the best man I could have found for the job," said the Chief Executive, in announcing the appointment. "He is an expert in road building and in water and sewerage work, and an idea of his ability may be gained from the fact that for several years he was in charge of the roads of the State of New York, where millions of dollars were spent annually under his direction. He is an imported product, having been brought here by the loan fund commission of the island of Ha-

#### MODEL FARMING PLAN LAUNCHED

Articles of copartnership have been concluded under the name of the Gneawa Produce Company, to engage in truck farming for the Honolulu market. Operations of the firm will be conducted on land belonging to Arthur Rice, situated back of Kaliua on this island.

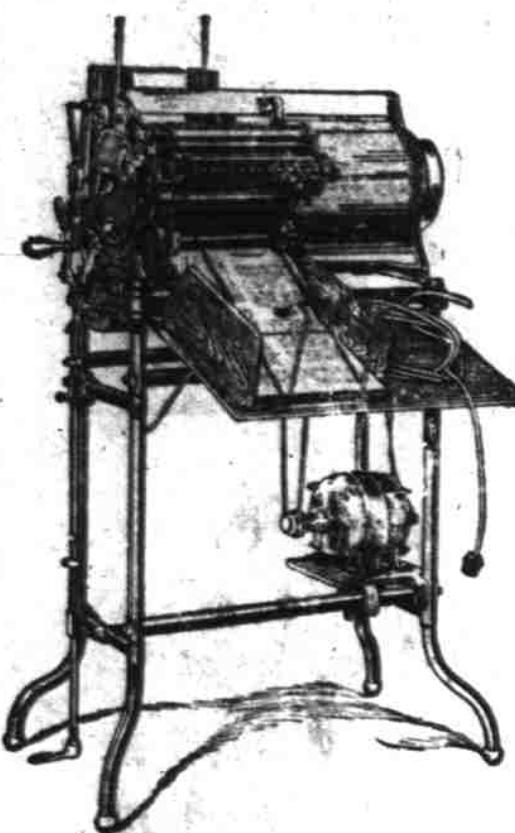

According to the articles the purpose of the copartnership is "the growing, raising, producing, buying, selling and marketing all kinds of vegetable and farm products."

Forty acres of land will be put into cultivation this year, but the firm has an option on 150 acres. Onions will be the principal article planted at the start. Asparagus, watermelons, beans, sweet potatoes, etc., will follow.

An experienced farmer from Imperial Valley, California, has been engaged to conduct the farm and will have the assistance of his son.

Those forming the company are Arthur Rice, John L. Fleming, E. L. Schwartzberg, S. T. Starrett, Albert Horner, H. L. Sauer and Alfred L. Castle. The term is tentatively made one year, but, should the venture prove successful, probably the company will become incorporated.

#### WEAVER GIVES ANOTHER SIDE OF II DECISION

Counsel for Mrs. Holloway  
Makes Statement on  
Litigation

SAYS ONLY MATTER UP  
IS \$10,000 OWNERSHIP

"Confused Popular Impres-  
sion" as to Other Titles  
Untrue, He Says

Judge Philip L. Weaver, former judge of the court of land registration and now one of the counsel for Mrs. Holloway in the matter of division of the \$10,000 award made on property of the John II Estate, Ltd., condemned for the Pearl Harbor naval station, was asked to state "the other side" of the question of clouded title on property that belonged to the late Judge II, which has been raised by counsel for the children of Mrs. Holloway and given emphasis by U. S. Judge Dole's decision lately affirmed by the ninth circuit court of appeals in San Francisco. In reply Judge Weaver has furnished the Star-Bulletin with the following statement:

"There seems to be a confused popular impression that the Federal Court for the Territory of Hawaii has decided that the title to many of various lots throughout the islands which John II devised is not in Irene, his daughter, now Mrs. Holloway, but in her two sons. The facts are quite different.

"In the first place, the only matter which the Federal court had before it to settle was the ownership of a sum of \$10,000, the proceeds of sale of land or Pearl Harbor which the United States government had condemned. In settling the ownership of this fund the children of John II's daughter claimed that they were entitled to the fee simple estate subject only to a life interest in their mother.

"Mrs. Holloway, and those claiming by virtue of conveyances for her, claim that Irene II, the daughter, took the fee simple. The many conveyances made in Honolulu, including the tract bought by Charles S. Desky from Liliuokalani called the Ahapuni tract, and the premises mauka of this and leases of thousands of acres of lands in Oahu Sugar Plantation Co., Limited, were made upon the belief that the will conveyed the fee simple to the daughter.

"The Dark Side.

"If the will conveyed a life interest only to the daughter, then all of these premises conveyed may be the subject of litigation upon her death. The statute of limitations would not be a defense, for the reason that the time would not begin to run till the death of the life tenant. This is the dark side of the picture.

"But you ask what has been done to prevent this state of things happening? The late Chief Justice A. F. Judd was the guardian of the minor daughter. He brought suit for the daughter and her two children.

(Continued on Page 7)

#### DIES AFTER AN OPERATION

Alfred O. Rosa, manager of Rosa & Co., wine and liquor dealers, Alakea and Queen streets died in the Queen's Hospital this morning. He had undergone an operation for appendicitis last week.

He was about thirty-six years of age, and leaves a wife and young family of children. Mr. Rosa was a prominent member of the Portuguese colony. He was a Past Chief Ranger of Court Camoes, A. O. F., also had served as president of the San Antonio Society. At his death he was president of the Union Loan and Savings Association.

The price of milk has been raised, and also the price of ice, and now Honolulu is undergoing a flour famine. Not many people have been aware of this fact, but it has become so serious that the bakeries have had to call on Hilo to supply them with the material for the staff of life. This accounts for the big loads of flour the Mauna Kea has been carrying from the big island to this one. The famine will be lifted shortly, however, as there is plenty of flour headed this way from the coast.

#### 2 DEMOCRATS OF OAHU MAY LOSE PLACES

Wirtz and Laukea May Not  
Have Complied Fully with  
Nomination Rules

SIGNATURES OF PAPERS  
NOT ALL ON REGISTER

Two Aspirants on Hawaii Said  
to Have Failed in Same  
Requirement

Unless certain voters registered correctly within the last four or five days the names of four legislative aspirants, two on Hawaii and two on Oahu, may not be permitted to go on the ballots.

This is by reason that the simple and easily understood law requiring the candidates to have the signatures of twenty-five registered voters on his nomination papers when they are presented to the Territorial Secretary, has not been fulfilled, at least so far as the Secretary is aware at present.

In each instance the required number of names was found on the papers, but investigation developed the fact that several were not registered at all, or were not registered by the same name and initials as the signatures attached to the nomination papers of the candidate.

The two candidates whose nominations from Oahu are in doubt are Ambrose J. Wirtz and C. P. Laukea, both temperate candidates for the senate from the third senatorial district. Though the nomination papers were filed in proper time with the Secretary some of the signatures were found, at that time, not to be qualified as voters under the same names as those signed to the papers. However, the registration of voters was not completed until last night at midnight and it is possible that all the signatures in doubt may prove satisfactory when the register is inspected again.

#### SHINGLE SAYS MAUI SAFE FOR PRINCE

Robert W. Shingle, chairman of the Republican territorial central committee, this morning returned from Maui, where he has been campaigning with Delegate Kuhio. He issued the following statement:

"Kuhio is the fact of his people on Maui and all indications point that he will get a larger vote this year than he did two years ago. McCandless has no show on earth.

"We had a large and enthusiastic meeting at Honolulu along with a grand luau; going from there to Lahaina and Wailuku. At Wailuku we had a monster mass meeting."

Tonight the Prince will address a meeting at Puunene, where Duke Kahanamoku will give a swimming exhibition in the tank of the Puunene Athletic club.

All candidates will then proceed to Hana overland, Duke accompanying them.

Kuhio leaves for Hawaii on the Claudine and will return to Honolulu October 28th on the Mauna Loa.

The following committee has been appointed to take charge of a grand luau to be given at Punahou on the night of October 24th: Jas. Kennedy, Frank Richardson, Willard Brown, T. E. Steere, Edw. W. Quinn.

This committee met today at 2 p.m. at Republican headquarters to work out the details. Capt. Robt. Parker will be master of ceremonies, which is a guarantee that this luau will be one par excellence.

All of the delegates to the last convention from the Fifth district as well as the officers and party workers from this district, will be invited. The intention of this meeting is to bring the Fifth and Fourth districts together and to get down to solid, sane work.

#### HAWAII REGISTRATION JUMPS NEARLY 300

[Special Star-Bulletin Correspondence]  
HILO, T. H., Oct. 16.—The total registration here is 3573, an increase of 266 over the figures of two years ago. Link McCandless Democrat, is back from his tour of the island and is confident that the Democratic-Home Rule combination will win on Hawaii and of his own election as delegate.

A girl may have taken ways who is neither a kleptomaniac nor a camera fiend.

#### Giants Lose To Red Sox In Ten-inning Struggle

Vast Crowd Sees Seventh and  
Deciding Game of Won-  
derful Series

[Associated Press Cable]  
BOSTON, Mass., Oct. 16.—Manager Jake Stahl's headwork in sending little Joe Wood into the box again today when Bedient showed signs of blowing up, won for the Boston Red Sox the premier honors of the baseball world in a dazzling ten-inning game today, the fourth victory out of seven games for the American League champions.

With the score a tie, the game went into extra innings, but the Bostonians sent the winning run across in the tenth and the world's championship was theirs.

Manager McGraw of New York sent Christy Mathewson into the box to duplicate, if possible, the work of Marquard and Tamm, and Mathewson as usual pitched a great game. Both teams suffered from errors, Boston being the chief offender, and Boston's hitting was not up to that of New York.

The score:  
Boston..... 3 8 3  
New York..... 2 9 2  
Batteries—Bedient, Wood and Cady; Mathewson and Meyers.

#### PUBLIC WINS; RECLAMATION TO GO AHEAD

The supreme court today handed down a decision in favor of the territory in the injunction suit brought against it by Cecil Brown, involving the big Kewalo irrigation project. This decision definitely gives the territory the right to proceed with the improvement as originally contemplated and the active work, contract for which was let some time ago to the Lord-Young Engineering company, may now begin at the earliest moment possible.

The court's decision sustains the territory's demurrer to the suit for injunction brought by Cecil Brown, who sought to restrain the territory and the Lord-Young company from undertaking this work. As a property owner Mr. Brown contended the government, in following out its plan, would be violating the fifth amendment of the constitution in taking private property for public use without just compensation. This was based on the proposal of the territory to make the projected fill of low lands in the Kewalo district, assessing the cost against the property affected, and if the owners should not pay, then to take the land itself in payment.

In its synopsis the court's decision states:

"Chapter 83 of the Revised Laws, as amended, relating to the improvement of lands which are in an insanitary or dangerous condition, or deleterious to the public health, is a health measure enacted in pursuance of the police power, and in providing that the work of improvement shall be done by and the cost of the owner of the land, in case he refuses to act, by the government at the land owner's expense, and authorizing the sale of the land to satisfy the lien imposed thereon for the amount of the cost of the improvement and the expense of foreclosure and sale, does not constitute or provide for the taking of private property for public use without just compensation in violation of the Fifth Amendment of the Constitution."

This was a friendly suit, brought merely to obtain a definite interpretation of the law by the Supreme Court before beginning the big improvement, thus determining the Territory's strength legally to prosecute the work despite protests of land owners. As a matter of protection the suit was sponsored by the Lord-Young Engineering Company, as that concern will invest a large amount of money in machinery to be built especially for the job, and it desired assurance of protection from possible injunction suits that might be started at any time after the actual work was begun.

Last night, Isaac H. Harbottle presided at the Moliili meeting of the Republican party in place of Mr. Frazer, who was appointed by the leaders. Harbottle acted as chairman and Hawaiian interpreter.

THIS SPEAKER  
Boston's hard-hitting outfielder, who  
figured in the victory.

#### BAR ASSN. TO PROBE CHARGES

The row between Judge Joseph Ferry and Carl Carlsmith, which resulted in the filing of a formal charge with the Bar Association of the Hawaiian Islands by the judge, accusing Carlsmith of professional misconduct, will be taken up by the executive committee of the Bar Association at a special meeting called for that purpose at 4 o'clock tomorrow afternoon.

This announcement is made today by Attorney Frank Thompson, president of the Bar Association, who says he has ordered the meeting which is to take place in his office. Though the discussion will be held behind closed doors, and the personal opinions of the various members of the committee on the charges, and the men making them will not be aired for the public, the decision concerning their disposition of the affair will be given out for publication.

The Puna magistrate asserts, in his charge against the attorney, that the latter overcharged. Maria de Souza, for whom he had been appointed representative in settling up the de Souza estate, and took \$800 for his services, although the court had allowed him a fee of only \$150.

Carlsmith, up to noon today, had filed no answer to the judge's charges, although, in discussing the matter yesterday he is quoted as saying that "people at Hilo have had much trouble with Judge Ferry" and that "if I had not come to Honolulu there would have been by this time a petition in circulation in Puna asking that Judge Ferry be discharged as district magistrate."

#### "COURTEOUS DIFFERENCE" IS AMICABLY ADJUSTED

That "courteous difference of opinion" between U. S. Customs Collector E. R. Stackable and Marston Campbell, superintendent of public works, has been amicably adjusted. It proved, after all, to be really a misunderstanding, and the superintendent of public works has written to the Secretary of War asking his permission to lay a part of the fuel oil pipe line over the property in question.

Following the reading of a communication from Collector Stackable at the meeting of the board of harbor commissioners this afternoon, the explanation was made. It seems that the land involved is owned by Allen & Robinson, leased personally by Mr. Stackable and used by the War Department. The pipe line now being laid must extend across the property, so the consent of Stackable and the War Department is absolutely necessary.

The board received word today that the Nappoo wharf is completed with the exception of some fenders that remain to be placed, and on the recom-

#### SUDDEN REVOLT IN MEXICO CITY TODAY

Nephew of Ex-President Starts  
Revolution, And Is Joined By  
Many Deserters From Federal  
Forces --- Two Gunboats Fly  
His Flag.

[Special Star-Bulletin Cable]

MEXICO CITY, Mex., Oct. 16.—A new and sensational phase was given to the Mexican situation today when in the shadow of the government buildings in the national capital, police soldiers and marines deserted the federal forces to join the revolution started by General Felix Diaz, nephew of ex-President Porfirio Diaz.

The saloons, banks and many shops have closed, and the city is tranquil in spite of the evident strength of the new movement.

#### Turkey Ready For War Now

[Special Star-Bulletin Cable]

CONSTANTINOPLE, Oct. 16.—With the embarrassment of the Italian war off its hands, Turkey is rushing preparations to lose its full military force on the Balkan States.

Today the Porte issued an ultimatum demanding that Greece and the other countries retract their insulting notes within twenty-four hours or Turkey will take immediate reprisal.

LONDON, Eng., Oct. 16.—It is reported that a declaration of war has formally been published in Sofia, capital of Bulgaria.

#### Bull Moose Victory In Mo.

[Special Star-Bulletin Cable]

JEFFERSON CITY, Mo., Oct. 16.—The State Supreme Court today handed down a decision upholding the right of the Progressive candidates for State and National office to a place on the official ballot.

#### Net Tightens On Lieut. Becker

[Associated Press Cable]

NEW YORK, N. Y., Oct. 16.—The divorced wife of Herman Rosenthal, the murdered gambler, today testified in the murder case against Police Lieutenant Becker that Rosenthal and Becker were intimate friends, that she saw Rosenthal pay graft money over to "Bald Jack" Ross, who has confessed that he was the go-between for Becker and the protected gamblers.

Harry Pollok, the well known sporting man, testified that he had secreted Ross after the Rosenthal murder, declaring that he had looked after Ross at Becker's orders.

#### DANGER OF SEPTICAEMIA EXISTS UNTIL FRIDAY

[Associated Press Cable]

CHICAGO, Ill., Oct. 16.—X-ray examinations made of Col. Roosevelt's wound this morning showed that his fourth right rib has been broken by the bullet, the exact position of which has not yet been ascertained.

The physicians state that there will be danger of septicaemia until Friday, but no need to fear it greatly, as the general condition of the colonel is excellent.

CHICAGO, Ill., Oct. 16.—The official bulletin of Col. Roosevelt's physicians, issued early this morning states that the patient passed a very good night, with his pulse and respiration normal. No anodynes were administered, there being no need for it. Less irritation of the wound is evident.

#### SHRANK DENIES BELONGS TO ANY BAND OF PLOTTERS

MILWAUKEE, Wis., Oct. 16.—Analysis of the barrel of the revolver with which John Shrank shot Col. Roosevelt, as well as of the remaining bullets in the revolver, shows no evidence that the bullets were poisoned. The would-be assassin was questioned closely by the police today in an effort to discover if there was anything like a plot to take the President's life. Shrank absolutely denies any political affiliations whatsoever, stating that he belongs to no order or band of anarchists, nihilists, socialists or anything of the kind. He ascribes his act to a "study of history."

#### WOULD-BE ASSASSIN IS BAVARIAN; ANCESTRY IS BAD

NEW YORK, N. Y., Oct. 16.—Investigations carried on here by the secret service and other agents have discovered that Shrank was born in Bavaria, that he came to America as an immigrant at the age of nine. Both his father and grandfather, it is stated, were of unsound mind.

mentation of the inspector in charge its construction was approved.

#### NOW FINISHING WORK ON GREAT REGISTER

There is a lot of work to be done which is now in progress before the great register of voters for this island, closed to entries at midnight yesterday, will be available for reference and as the basis of the various precinct electoral lists.

Today Deputy Clerk Van Giesen is engaged in filling out the blanks opposite the names of a large bunch of voters who arrived late, and with regard to whom there was not time for entering all of the data required, without shutting out some of the tardy applicants. The particulars were duly contained in the affidavits filed,

but all that could be put in the book were the names, occupations and residences.

After this job is finished the voters are to be segregated by precincts, and tabulation made of their respective nativities, occupations, ages, residences and in cases of naturalized citizens, dates of naturalization.

So far the number registered is only estimated, though probably with closeness to accuracy. It is placed at 7992, against 7452 registered in 1910, a gain of 530.

One hundred and ten Chinese in the Fourteenth precinct of the Fifth District, registered in the Great Register before Clerk Kalanokalani. Most of them are Republicans, according to J. C. Anderson, who speaks the Chinese language fluently.
